

I disagree with relaxing the "do not call list" regulations..they should be stronger..Since I signed that list, I have received more calls, more frequently and from all across the country. It starts at 8am and continues till at least 8:30-9:00pm at night..I get everyday including Sunday at least 5-7 calls a day and have.. ever since the option to sign the do not call list was instatued. I get more calls now than ever before I signed that list.When I tell them I am on the no call list the reply is one of two..1) sorry we didn't know you were on the list OR 2) the no call list doesn't apply to non-profit organizations. I get woken up in the morning by these telemarketers and bothered all day and evening..I'm really sick of my day being interrupted as i am always running to the phone in case it is a family emergency..my answer machine has to be emptied everyday when I don't answer the phone..The caller Id says one of two things also..1) unknown (which could be the operator call) or 2)private..(could be a private number of someone I need to speak to)..I pay for my phone service and it is in my private relm (home) I do not want to be bothered..this is MY RIGHT..and it's BEING VIOLATED constantly. i F THE TELEMARKETERS DON'T LIKE IT ..LET THEM GET A DIFFERENT JOB..ONE THAT ISN'T INTRUSTIVE..because this is..I hopefully will got get even more calls after writting this comment..
